		Level – 1		

Candidate's Level: _____

AVIATION ENGLISH COMPETENCY TEST

We have evaluated the Air Traffic Controller named above and place him at
Level _____

Examiner – 1 _____ Signature _____

Position: _____ Date _____

Examiner – 2 _____ Signature _____

Position: _____ Date _____

Additional Remarks (if any): _____

Procedure:

1. Start by choosing two or three levels (e.g Levels 4 and 5) which you think the candidate falls into and then eliminate the levels that do not apply until you only have one left.
2. The overall rating should reflect the level reached in the candidate's weakest area. Failure to comply with descriptors in one category (e.g. *Pronunciation, Structure, etc*) in one level indicates that the next lower proficiency level should be awarded. That is, a person's proficiency rating level is determined by the lowest rating level assigned in any particular category. Thus an individual must demonstrate proficiency at Level-4 in all categories in order to receive a level-4. (ICAO Manual 2.8.4)
